

COLLEGE OF ARTS & SCIENCES OFFICE OF GRADUATE SERVICES

The Office of Graduate Services works in partnership with students, their departments, and the college as a whole to provide resources that guide academic and personal wellness throughout students' graduate school journeys. Our team focuses on holistically supporting students, promoting success in graduate school and beyond. Administratively, we help students navigate matters related to college and university policy, track program progression with intentionally placed milestones, and clear students for graduation.

CONNECT

Our primary mode of communication is email. Check your student email regularly for emails from The Office of Graduate Services for special course offerings, events around campus, graduate assistantship opportunities and important progression reminders.

We're here to help you track your progress toward degree completion with predetermined "milestones." Your academic evaluation is an easy to use tool designed to help you monitor your progress. Access your academic evaluation in DegreeWorks and learn how to read your evaluation with our easy how-to video.

TRACK

Each semester, our office hosts professional development and wellness events, in collaboration with other GSU departments, thought leaders, and subject matter experts, that are designed to enhance your program and support your overall well-being as a graduate student. **All Fall 2020 events will be held virtually.** Register and attend from the comfort of your own home, office, or safe space.
